

ACCIDENT and MEDICAL FUND APPEAL for our CHILDREN

Your support is highly appreciated...

Project Overview

Inevitably in a school, children will from time to time have an accident. This mainly occurs while playing or during sports. Common accidents are sprains and bone fractures. From time to time this can be serious and may require minor surgery. The costs for the parents can be unmanageable.

Children also fall sick, and equally the costs are difficult for parents. With 120 children in our boarding, sicknesses and fevers are fairly common. The school needs to attend to the children. Parents due to the distance or other reasons are challenged to respond financially to these situations.

The school takes up the financial costs for the child and raises the invoice for the parent. Unfortunately these payments end up being written as bad debts as the parents struggle to afford other basic needs. Our school uses about KSh. 250,000 per year as medical/hospital expenses. Currently we have an accident cover for all our children that costs KSh 175,826 per year. The cover expires in July 2019 and we may not be able to renew it due to the financial status quo of the school.

We appeal for this amount - **KSh 250,000** which will serve as a fund for accident and treatment for other medical cases that may arise involving our children who depend highly on us. With the help of sponsorship and donations from all over the world we have been able to provide food for our underprivileged children, clothe them and of most importance educate them. We continue to appeal for your help in providing basic needs such as health care for our children.

Project Objective

The Rudolf Steiner School Mbagathi, Nairobi Kenya, has a mission and a goal to ensure that our children develop into healthy adults who are able of themselves to impart purpose and direction to their lives. A healthy child is an asset to her/himself and to the world at large. Health care must start at a young age even in this part of the world where poverty, ignorance and disease is rampant leading to health being neglected when it matters most. This situation affects children's well-being and unfortunately their education too.

However even with a considerably healthy child, medical cases are inevitable and we sometimes have to visit hospitals. We look forward to wholesome physical, mental and emotional health care that will make children ready to be educated. Together we can make it happen.

Choose to be the help that a helpless child needs.

Help us Educate Healthy Children. It matters.

"Even the flight of the sparrow moves the acacia tree." – Even the stiffest of trees can be moved by the lightest of touches – Even the smallest of gifts given with warmth of heart / generosity can make a huge difference to those in need".
